DETAILED ACTION

1. Receipt is acknowledged of Applicant's Prior Art Statement, filed September 2, 2004.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, and 36-49, drawn to an apparatus for planarizing a workpiece, classified in class 451, subclass 65.
 - II. Claims 14-35, drawn to a method of planarizing a workpiece, classified in class 451, subclass 41.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed may be performed by another materially different apparatus, such as one having a reciprocating web, with no orbital motion.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
